# NEW SERIES JÜDISCHE GEGENWART CONTEMPORARY JEWISH LIFE

*Edited by Dani Kranz and Sarah M. Ross*

The transdisciplinary book series *Contemporary Jewish Life* deliberately focuses on researching contemporary Jewish life in all its facets and voices. Although Jewish history and culture are now well established at many German universities, the focus is often on the past, with a non-Jewish perspective predominating. As a result, many nuances and the diversity of Jewish experiences remain hidden.

The series aims to close this gap and focus on analyzing the present of Jewish life, shedding light on how Jews today actively shape their identities, cultural and religious practices, their communities and their place in society. Innovative interdisciplinary approaches, such as those developed in migration and community studies, create a space for a lively and multi-layered picture of the Jewish present.

The series allows to rediscover Jewish life in all its complexity and to better understand the rich diversity of Jewish life today.

Im Zusammenspiel von Analysen einschlägiger biblischer Texte (insb. Hag und Sach 1-8; Esr 1-6; Gen 14; Ps 110) und außerbiblischer Quellen rekonstruiert die Studie die Entstehung eines politisch einflussreichen Jerusalemer Hohepriesteramtes. Entgegen einem breiten Forschungstrend kommt sie zu dem Ergebnis, dass die Politisierung des Jerusalemer Hohepriesteramtes nicht vor der seleukidischen Zeit eingesetzt hat.

Persische und hellenistische Zeit

In an interplay of analyses, relevant biblical texts (esp. Hag.; Zech. 1–8; Ezra 1–6, Gen. 14; Ps. 110) and extra-biblical sources, this study reconstructs the development of the politically influential office of the high priest in Jerusalem. Countering a widespread research trend, this study draws the conclusion that the politicization of the Jerusalem office of the high priest did not begin before the Seleucid age.

The Old Greek translation of Job has long challenged scholars. How can the difference in length, literary profile, and theology be described? This study investigates text, translation technique, literary contexts, and theological profile of God's speeches (Job 38:1-42:6) in OG Job. By focussing on translational strategies and reading of the Greek text in its own right, this study provides new perspectives on the Book of Job in its Greek form.

The Ezekiel passages describing the instructions for, and dramatization of, divine messages are among the most bizarre in the Hebrew Bible. Yet these sign-acts are often overlooked within Ezekiel studies, which tend to focus on the book's strange visions and controversial oracles. This volume addresses the growing diversity in approaches in Ezekiel studies by inviting international scholars to focus on the texts concerning Ezekiel's sign-acts.

Biblical prophecy has long been regarded as distinct from pagan divination: while the nations solicited divine messages, Hebrew prophets received revelation spontaneously. Ryan D. Schroeder challenges this false dichotomy. Rereading the Hebrew Bible and comparative West Asian texts, he argues that the spontaneity of Israelite revelation is largely a mirage produced by ancient scribes and modern scholars reifying a superior "biblical" religion.

Studies of the history of manuscripts and of their acquisition demonstrate their impact on research into Jewish studies and on modern Judaism. The analysis of medieval liturgical content reveals ideological and theological notions that lie behind prayer texts and the variant forms that they take. Scholars in Jewish studies had common characteristics but much remained that was individual about their lives, research publications and achievements.

Tractate Avot ("The Fathers"), commonly dated in the third century, is the most popular tractate of the Mishnah. It belongs to the Wisdom Literature and is a strongly ethical tractate. The main emphasis of the commentary is not only on the meaning of its sayings, but on the transmission history of the tractate in order to subject the traditional date and the place of the tractate in rabbinic Judaism to a critical re-evaluation.

Die Arbeit hinterfragt die traditionelle Datierung der sogenannten „Hiskianischen Sammlung“ im Sprüchebuch (Kap. 25–29) ins späte 8. Jh. v. Chr. Durch eine Analyse der mehrfach bezeugten Einzelsprüche innerhalb des Sprüchebuchs sowie einem Vergleich mit den demotischen Lehren der ägyptischen Spätzeit erweist sich eine spätere Datierung in die nachexilische Zeit als plausibler, was zu einem neuen Verständnis der „Hiskianischen Sammlung“ führt.

This study challenges the traditional dating of "Hezekiah's Collection" in the Book of Proverbs (chapters 25–29) to the late eighth century CE. An analysis of the frequently attested individual proverbs within the Book of Proverbs and a comparison with Demotic teachings from the Egyptian Late Period suggest a later, more plausible dating to the post-exilic period, resulting in a fresh understanding of the "Hezekiah's Collection."

The powerful imagery of water, with its recurring and complex manifestations, gives unity and structure to the Book of Jeremiah. Through a close reading of each occurrence of this image, this study demonstrates how the Book of Jeremiah offers a theological reinterpretation of the entire political and religious history of Israel, from the crisis of the covenant to its rupture and ultimately to its restoration in a new covenant.

Living in a time of growing Hellenistic pressures, the Jewish sage Ben Sira sought to strengthen his students' piety. He accomplishes this by uniting the conception of the sage as father of his students to the spousal relationship the sage shares with personified Wisdom. In developing these themes, Ben Sira provides the model by which his students can raise pious children in a family that resembles their pedagogical situation under Ben Sira.

Eine wichtige Frage der Gegenwart ist, wie man heute heilige Texte im säkularen und theologischen Kontext lesen kann. Dieses Buch wagt den Versuch, ein zweistufiges Modell vorzuschlagen, das pluralitätsfähig und integrativ ist. Die Neubesinnung auf kontextuelle Exegese wird dabei an der inner-biblischen Wirkungsgeschichte des Exodus-Stoffes erprobt, genauer daran, wie er sich in den „hellenistischen“ Büchern der Bibel und des Frühjudentums zeigt.

**Exodus; Biblische Hermeneutik; Intertextualität**

One important question being asked today is how to read sacred texts in secular and theological contexts. This book proposes a two-stage model that is integrative and capable of plurality. It attempts a rethinking of contextual exegesis by looking at the inner-Biblical reception history of the Exodus material – to be more precise, by examining how it is revealed in the “Hellenistic” books of the Bible and early Judaism.

The study concerns how the Jacob Story of the Book of Genesis was interpreted by the author of the Book of Jubilees in the 2nd century BCE. It focusses on three key themes, the patriarch Jacob as the people of Israel, Jacob's close relationship to the Mosaic Torah (esp. Deuteronomy), and Jacob as the recipient of all the promises given to Abraham. Jacob exemplifies the perfect Israelite who fulfils the Torah and can thus inherit the promises.

The volume presents studies on Jew-hatred and how it was encountered in the Second Temple period. It includes contributions on literature from the Hellenistic and Roman times from different proveniences, ranging from Jewish literature in Greek language (e.g. Septuagint and Philo) to prejudices and resentments in the works of Greek and Roman authors.

In most cases, the literature on the books of the Maccabees considers Josephus as a supplementary source. In this volume, we take Josephus as our primary source and explore how and what he wrote about the Maccabees. With 11 essays in English and German and an introduction by Steve Mason on the history of research, this volume aims to bring the reader closer to Josephus' view of the Maccabees and his interpretation of these works.

The essays in this volume cover the Song's rich reception history from antiquity to the present, paying attention to diverse interpretations in commentaries, sermons, and other literature, as well as the Song's impact on spirituality, theological and intellectual debates, and the arts.

Each section will offer readings of portions of the Book of Samuel that engage with other texts. The chapters are arranged in the order of the narrative sequence of Samuel to highlight the way reading with other texts can inform a reading of the Book of Samuel.

Specialists explore the relationship of Luke and Acts to Judaism. Convinced that no NT text can be properly understood apart from its Jewish matrix, key questions concerning Luke's authorship, audience, and interests are revisited. The volume also evaluates Luke and Acts within their Greco-Roman environment in light of their Jewish character. Finally, it compares Luke and Acts with other early Christian writings in relation to Jews and Judaism.

Das Neue Testament enthält Rechtsfälle und -begriffe, die noch keine fachkundige Behandlung erfahren haben. Hier wird interdisziplinär nach heutigem Wissensstand ermittelt, welche Rechtsbegriffe, aramäisch, hebräisch, griechisch oder römisch, dem Verhalten der Menschen sowie der sprachlichen Darstellung zugrunde lagen, differenziert nach Ort und Zeit. Daraus ergeben sich konkretere Textaussagen, wie sie bisher Kommentaren nicht möglich waren.

**Jesusforschung; Luthertum; Naturrecht; neutestamentliche Rechtsgeschichte**

The New Testament contains legal cases and terms that have never received scholarly attention. This interdisciplinary study draws on the latest research to differentiate by period and location which legal concepts – Aramaic, Hebrew, Greek, or Roman – determine people's behavior in the text and the applicable linguistic forms. This innovative approach reaches concrete new conclusions about the text that previous commentaries have missed.

This book combines two closely related research interests that have not yet received sufficient recognition: The investigation of justice in the Hebrew Bible and the position of male and female slaves within it. Justice in the ancient Near East and in the Old Testament is of a transcendent quality that precedes God and humans alike. In this worldview, the link between act and consequence is constitutive, but slaves are excluded as mere property.

Though typically associated more with Judaism than Christianity, the status and sacrality of Hebrew has nonetheless been engaged by both religious cultures in often strikingly similar ways. The language has furthermore played an important, if vexed, role in relations between the two. *Hebrew between Jews and Christians* closely examines this frequently overlooked aspect of Judaism and Christianity's common heritage and mutual competition.

This study analyzes the sources of *Pirqe de-Rabbi Eliezer* (PRE), an eighth-century “Late Midrash” thought to have drawn from the Old Testament Pseudepigrapha. It focuses on the two Pseudepigrapha which are closest in form and content to PRE, the Second Temple *Jubilees* and late antique *Cave of Treasures*, all three of which are types of Rewritten Bible. In the end, PRE drew from its own cultural environment rather than long-lost texts.

Der Jalkut Schimoni ist ein Sammelwerk rabbinischer Auslegungen zur gesamten Hebräischen Bibel. Unerforscht ist, nach welchen Kriterien die Auslegungen ausgewählt wurden und ob das Werk als umfassendes Nachschlagewerk für exegetische Fragen, zur Verbindung von Bibelauslegung in Talmud und Midrasch oder zur Reform der rabbinischen Auslegungstradition konzipiert wurde. Die Übersetzung des Werkes ist ein erster Schritt, diese Fragen zu beantworten.

**Rabbinisches Judentum; Genesis; Jüdische Schriftauslegung; Mittelalter**

The *Yalkut Shimoni* is a compilation of rabbinic interpretations of the Hebrew Bible. There has been no research into the criteria used to select them, nor do we know whether the work was intended as a reference work for exegetical issues, for connecting biblical interpretations in the Talmud and Midrash, or for reforming the rabbinic tradition of interpretation. The translation in this volume is a first step toward answering these questions.

Tolerance as a universal value of modernity is not usually associated in popular consciousness with religion, which is often regarded as inherently intolerant. This book addresses the hermeneutics of tolerance regarding Jewish, Christian and Islamic traditions and traces the promotion of tolerance in different historical and cultural settings. It demonstrates that tolerance occupies in fact an important place in the three monotheistic religions.

For both Judaism and Christianity, the Menorah is an iconic artefact. It played a prominent role as an implement of the Tabernacle in the desert and the Temple, and it also figures prominently in Christian imagery. This volume brings together reflections on the Menorah in both Jewish and Christian traditions and contributes to a better understanding of their cultural entanglement in pre-modern times.

By the ninth century, Muslim commentators put forth the idea that another person was crucified in Jesus' place. However, mention of this substitution rarely occurs in early writings between Muslims and Christians, even when discussing the cross. This study demonstrates the lack of evidence for the substitute narrative as an established interpretation among Muslim and Christian theologians from the eighth to the eleventh centuries.

This volume discusses Christian and Jewish travel narratives against the background of both biblical exempla and the heavy presence of broader storytelling cultures. Special attention is paid to narrative strategies, aiming at outlining, modifying, and erasing borders with "monotheistic competitors" as well as pagan patterns. While the first part highlights appalling sea adventures, the second focuses on the travel to and around Holy Land.

Christian Petter Löwe, a Jewish convert to Lutheranism, published *Speculum Religionis Judaicae* (Mirror of the Jewish Religion) in 1732. Jonathan Adams (University of Gothenburg) introduces the background to Löwe's "mirror" and presents the original Swedish text alongside an annotated English translation. It shows how Christian ethnographical writing about Jewish ceremonies arrived in Sweden long before *Judereglementet* of 1782.

The interreligious exchange between Islam and Judaism is as old as Islam. Today, the political situation in the Middle East and the situation of Muslims as minorities in Europe constitute important backdrops to the relationship between Muslims and Jews. Based on data from qualitative individual interviews, this book explores narratives about Jews among Muslims in contemporary Norway.

Nach den radikalen Destruktionen der deutsch jüdischen Aufklärung in den politischen Theologien von Orthodoxie und Zionismus nach dem ersten Weltkrieg, versuchen Gershom Scholem und Martin Buber eine dialogische Form jüdischer Aufklärung zu entwerfen, die gegen den nationalen und den orthodoxen Exodus – auf deren postsäkulare Relegitimation zielt.

Following the radical destruction of the German-Jewish Enlightenment in the political theologies of Orthodoxy and Zionism after the First World War, Gershom Scholem and Martin Buber attempted to develop a dialogic form of Jewish Enlightenment that would counter the national and Orthodox exodus – aimed at their post-secular relegitimization.

Die auf Ungarisch verfassten Texte des jüdischen Orientalisten Ignaz Goldziher stellen einen großen Anteil seines Werks dar. Sie umfassen ein ungewöhnlich breites Spektrum an Genres: neben populärwissenschaftlichen Artikeln auch Lehrpläne für die örtliche Talmud-Tora Schule, Vorlesungen und Nachrufe auf ungarische Orientalisten. Es eint sie ein durch die starke Ortsbindung inspirierter Wissenstransfer aus und in die europäische Wissenschaft.

The texts written in Hungarian by the Jewish orientalist Ignaz Goldziher represent a large portion of his oeuvre. They encompass an unusually broad spectrum of genres: in addition to popular science articles, they also include curricula for the local Talmud Torah school, lectures, and obituaries of Hungarian orientalists. They are united by a transfer of knowledge from and to European scholarship, inspired by their strong local ties.

Die Dissertation des Breslauer Rabbinatskandidaten Moritz Rahmer (1837–1904) zu den *Quaestiones Hebraicae in Genesin* des Hieronymus wird bis heute zitiert. Rahmers Anliegen war es, die Einflüsse jüdischer Lehrer auf den Kirchenvater ins Bewusstsein der akademischen Öffentlichkeit zu rücken. In dieser kommentierten Neuedition werden Rahmers Textbeispiele diskutiert und die Dissertation in den Kontext der Wissenschaft des Judentums gestellt.

The dissertation by Breslau rabbinical candidate Moritz Rahmer (1837–1904) on Jerome's *Quaestiones Hebraicae in Genesin* is still being cited today. Rahmer's objective was to draw the attention of the academic public to the influence of Jewish teachers on the Fathers of the Church. This annotated new edition discusses examples from Rahmer's text and situates his dissertation within the context of Jewish scholarship.

Identitätsdebatten prägen unsere Gegenwart. Im Zentrum der Publikation stehen Werke von Martin Buber, Aharon Gordon und Ber Borochoch und die Frage, wie diese jüdisch-zionistische Identität inmitten global nachzuweisender Vorstellungen von Nation, Religion und Esoterik auf je eigene Weise konstruiert haben. Dieser Nachvollzug identitätsbildender Prozesse macht deutlich, wie bereits im frühen Zionismus um Tradition und Erneuerung gerungen wurde.

Ours is an age shaped by identity debates. This publication focuses on works by Martin Buber, Aharon Gordon, and Ber Borochoch, and asks how these authors construed Jewish-Zionist identity in the midst of global notions of nation, religion, and esotericism – each in their own way. This exploration of processes of identity building illustrates the struggles over tradition and reform, even in early Zionism.

Gustav Landauer (1870–1919) gilt als bedeutender Vertreter des deutschsprachigen Anarchismus. Dieses Buch geht der Frage nach, ob Landauer auch als jüdischer Intellektueller gelten kann und wie er in die jüdische Kulturgeschichte seiner Zeit einzuordnen ist. Dabei wird auch der Einfluss seines Aufwachsens und der von ihm als jüdisch verstandenen angeeigneten Traditionen auf sein Werk untersucht.

Mit einem Vorwort von Paul Mendes-Flohr.

Gustav Landauer (1870–1919) is considered an important representative of German-speaking anarchism. This book asks whether Landauer can also be seen as a Jewish intellectual and how he fits into the Jewish cultural history of his time, examining the influence of his upbringing and the appropriated tradition that he perceived as Jewish on his work.

This book investigates the audio/visual works created by American artist Bruce Nauman (b.1941) from 1965 to the present. A particular attention is given to sensual perception and the limits of epistemological equipment. By focusing on contraptions of perception, his works cast doubt on the validity of truth in the production and perception of reality through the performativity of the acts of thinking and sensing.

Jewish polemical Jesus stories (“Toledot Yeshu“) are based on the gospels and on Christian legends. They circulated since the Middle Ages in different text versions. In the Amsterdam Jewish metropole, a religiously open climate prevailed in the 18th century. The Yiddish manuscript, which is edited here for the first time, is an outstanding testimony how Ashkenazic Jews from Amsterdam took notice of their Christian neighbors and their beliefs.

Das reiche literaturwissenschaftliche Werk Almut Suerbaums verbindet gekonnt die sehr unterschiedlichen englisch- und deutschsprachigen Forschungstraditionen. Dieser Band präsentiert einige ihrer wichtigsten Aufsätze und bietet befreundeten Kolleg\*innen Raum für Diskussion, aktuelle Einordnung und Würdigung ihres wissenschaftlichen Beitrages.

Mittelalterliche Literatur; Narratologie; Lyrik; Lied

At the intersection between the Anglophone and the German sphere with their individual and distinctly different academic environments, Almut Suerbaum’s oeuvre has bridged these worlds. This volume brings together some of her most influential works, and in addition provides the space for colleagues and friends to embed individual contributions within wider frameworks of scholarship.

Author David Vogel (1891–1944) and his (second) wife Ada Nadler (1900–1946) exchanged numerous letters over the course of their lives. Around 220 surviving letters have been compiled in this volume, stemming from the days of their first acquaintance, from their travels, from the years Ada spent in lung sanatoriums, and from the French internment camps that David Vogel was imprisoned in as an “enemy alien” in 1939/40.

Diese Studie fügt den im deutschen Erinnerungsdiskurs andauernden Debatten um das Repräsentationsverhältnis von Shoah und kolonialer Gewaltgeschichte einen neuen Blickwinkel hinzu. Sie zeigt auf, wie in Teilen der deutschsprachigen jüdischen Literatur der letzten Jahrzehnte bereits jene grundsätzlichen philosophischen Probleme in Szene gesetzt werden, auf welchen die heutige Erinnerungskrise zu einem wesentlichen Teil gründet.

deutschsprachige jüdische Literatur;  
Gegenwartsliteratur; Postmoderne; Erinnerung

This study adds a new perspective to ongoing debates in German memory discourse about the relationship between representations of the Shoah and of the history of colonial violence, showing how some Jewish literature written in German in recent decades has already been showcasing some of the fundamental philosophical issues underpinning the foundations of today's memory crisis.

Kafka's Jewish background, interests, and readings, and their relevance for his writings, are still largely viewed as marginal within the vast domain of Kafka scholarship. By taking into account new findings, theoretical approaches, and historical developments, the essays in this volume reconsider and extend our knowledge of Kafka's relationship to Judaism and Jewish thought.

Dieser Band mit Beiträgen aus den Geschichts-, Kultur- und Literaturwissenschaften thematisiert extra-territoriale Positionen jüdischen Denkens zwischen „Alter“ und „Neuer“ Welt mit einem Schwerpunkt auf dem Exil der 1930er und 1940er Jahre, aber auch historische Genealogien utopischer Amerika-Narrative. Als roter Faden fungiert die Frage nach der Bedeutung von „Lateinamerika“ im utopischen Schreiben und Handeln im Kontext jüdischer Traditionen.

**Utopie; Lateinamerika; Jüdische Geschichte; Transkulturalität**

The close relationship between Latin America and the idea of utopia has been largely overlooked by the German-speaking world so far. The chapters from the fields of history, cultural studies, and literary studies in this volume reveal the significance ascribed to Jewish actors from Europe in particular (exiles, emigrants, and travelers) in this nexus. It traces their mediations between the “Old World” and the utopian vision of a “New World.”

Die erste umfassende Monographie zum literarischen Werk der Philosophin Sarah Kofman (1934–1994) deutet die Verfahren der Autorin als Widerspruch zum Geschichtsrevisionismus in Frankreich. Die Hinwendung Sarah Kofmans zum Literarischen wird auch als Reaktion der Überlebenden auf die Leugnung der Kollaboration und die Verdrängung der Mitverantwortung Frankreichs an der Deportation und Ermordung der europäischen Jüdinnen und Juden erkennbar.

Shoah; Vichy-Regime; Frankreich; Geschichtsrevisionismus; Erinnerungskultur

The first comprehensive monograph on the literary works of philosopher Sarah Kofman (1934–94) interprets the techniques used by the author as contradicting French historical revisionism. Sarah Kofman's turn to literature proves to be a survivors' response to the denial of collaboration and the suppression of France's co-responsibility for the deportation and murder of the European Jews.

Scholars have been asserting that there are no dialects in Modern Hebrew, which makes Israel an interesting case for variationist linguistic theorising. This pioneering book investigates categories Hebrew speakers use for their classification of linguistic variation. Relying on interviews and experimental data, the categories are analyzed from both qualitative and quantitative perspectives.

The United Nations Relief and Rehabilitation Administration (UNRRA) and the Jewish Joint Distribution Committee (JDC) hired prolific mental health professionals to provide Displaced Persons in postwar Europe with psychological assistance. The knowledge they applied, and the extent to which this work served to realize the administrative and political objectives of the two organizations in Europe between 1944 and 1948 is explored in this book.

In February 1972, the world's first group of and for queer Jews convened in London for their first public symposium. Their aim was to tackle the exclusion of non-heteronormative Jews in Jewish and queer communities. A few years later, two similar groups were founded in Paris and Amsterdam for socializing and political activism among queer Jews there. This study comprises the groups' early histories and their networking in Europe.

Im Frühjahr 1933 initiierten jugoslawische Zionisten Hilfsaktionen für jüdische Flüchtlinge aus Deutschland. Bis 1941 gelang es ihren Netzwerken, Tausende Flüchtlinge aufzunehmen, zu ver-sorgen und nach Palästina oder Übersee zu expedieren. Die vorliegende Studie untersucht die Handlungsspielräume jüdischer Akteure im Königreich Jugoslawien, schaut auf Erfahrungen der Flüchtlinge und dekonstruiert zugleich alte Forschungsnarrative.

In the spring of 1933, Yugoslav Zionists initiated aid programmes for Jewish refugees from Germany. By 1941, their networks of help had succeeded in taking in thousands of refugees, providing for them and sending many of them to Palestine or overseas. This study examines the room for manoeuvre Jewish actors in the Kingdom of Yugoslavia had, looks at the experiences of the refugees, and at the same time deconstructs old research narratives.

The History of the Shtetl after 1945 is the first book-length social history of the aftermath of the Holocaust in the Eastern European countryside and of the mass-scale repopulation, domestication and adaptation of vacated Jewish spaces. It addresses a blind spot in the scholarship on the aftereffects of the Holocaust, picking up the history of Eastern Europe's Jewish towns where others declared their irreversible end.

Im Jahr 1476 erschütterte ein Ritualmordvorwurf die jüdische Gemeinde Regensburg. Die Studie untersucht die folgenden Ereignisse im Kontext jüdisch-christlicher Beziehungen. Aus vielfältigen Quellen enthüllt sie Vorurteile der Ankläger, sowie Verteidigungsstrategien der Angeklagten. Sie bietet einen fesselnden Einblick in die Regensburger Vergangenheit und ein Plädoyer für die Integration jüdischer Perspektiven in die mittelalterliche Geschichte.

Regensburg; Ritualmordlegende; Jüdisch-christliche Beziehungen; Mittelalter; 15. Jahrhundert

In 1476, an accusation of ritual murder shook Regensburg's Jewish community. This study examines the events that transpired within the context of Jewish-Christian relations, investigating a range of sources to uncover the prejudices of the accusers as well as the defense strategies employed by the accused. It provides fascinating insights into Regensburg's past and calls for Jewish perspectives to be integrated into medieval history.

Exploring a wealth of intermedial sources, this book examines in a comparative approach the cultural productivity in nineteenth-century Germany of the destruction of Jerusalem and the Second Temple by the Romans. The historical occurrence emerged as a major factor in negotiations of both German and Jewish identities vis-à-vis such decisive socio-cultural and political developments as the *Kulturkampf* and the rise of nationalism and antisemitism.

Kurz vor der nationalsozialistischen Katastrophe benannte das *Leipziger Jüdisches Jahr- und Adressbuch für 1933* die Mitglieder der Religionsgemeinde: Haushaltsvorstände, deren Berufe und Wohnadressen. Alle anderen blieben unerwähnt. Wer waren sie und was bestimmte ihren Alltag? Woher und wann kamen sie in die Stadt? Diesen Fragen geht das vorliegende Buch nach. Erstmals wurden dafür zahlreiche Quellen und Zeitdokumente systematisch ausgewertet.

Shortly before the National Socialist catastrophe, the 1933 *Leipzig Jewish Almanac and Address Book* named the members of the religious community: heads of household, their professions, and addresses. Everybody else went unmentioned. Who were they, and what did their lives look like? Where did they come from? And when did they come to Leipzig? This book addresses such questions, systematically analyzing many sources for the first time.

Jacobson advanced from Yeshiva studies in Palestine to rabbinic leadership in Scandinavia. The biography draws on his 12,000-item private archive documenting Jewish life in Sweden. It unveils vibrant Orthodox life in 1940s Stockholm and the challenge of maintaining Judaism in modern Scandinavia.

Willy Meisl was an Austrian-Jewish journalist who revolutionised how sport was written and thought about in interwar Europe. But after the Nazis' rise to power, he also began writing about politics and Jewish identity. This volume brings together some of his most searing writings on these themes, reintroducing readers to one of twentieth century's foremost chroniclers of change, and a now largely forgotten pioneer of journalism between the wars.

Der Band widmet sich den vielfältigen Formen direkter Interaktion zwischen Jüdinnen/Juden einerseits, Christinnen/Christen bzw. Nichtjüdinnen/Nichtjuden andererseits vom Mittelalter bis zum 20. Jahrhundert. Er fragt danach, wie das Zusammenleben konkret ausgesehen hat, wie Fremdheit und Nähe hergestellt und erlebt wurde, wo und wie Grenzen errichtet worden sind und unter welchen Bedingungen diese Grenzen überschritten werden konnten.

Antisemitismus; Juden; Jüdisch-nichtjüdische Beziehungen; Mittelalter bis 20. Jahrhundert

This volume addresses diverse forms of direct interaction between Jews on the one hand and Christians and non-Jews on the other from the Middle Ages to the twentieth century. It investigates what exactly life together looked like, how otherness and proximity were produced and experienced, where and how borders were erected, and the conditions in which those borders could be crossed.

In der westdeutschen Filmgeschichte wurden jüdische Akteur\*innen oft als Einzelfälle wahrgenommen. Die Autor\*innen des Bandes diskutieren an ausgewählten Beispielen, worin sich ihre Biografien, Karrieren und Werke dennoch ähneln und inwiefern sie zusammenhängen. Dabei wird jüdische Filmgeschichte auf doppelte Weise zum Thema: Durch den Blick auf Filme und Filmschaffende wie auch durch die Frage nach den Voraussetzungen ihrer Geschichtsschreibung.

In West German film history, Jewish actors were often perceived as isolated cases. Using selected examples, the authors of this volume discuss the similarities between their biographies, careers, and works and the extent to which they are connected. Jewish film history is addressed in two ways: by examining films and filmmakers, as well as by examining the preconditions for their historiography.

Drawing on the approaches of Critical Heritage Studies, this anthology discusses how various manifestations of Jewish cultural heritage are constructed, constantly selected, recreated and renegotiated as a social, cultural and religious practice in the present. The focus is on contemporary relationships between people, cultural heritage and power, particularly looking into the position of the legitimate speaker.

The book deals with Jewish heritage as a form of knowledge, and with academic and non-academic structures and architectures within which such knowledge is produced, negotiated and passed on. In individual contributions, the authors discuss and reflect on what can be understood by 'Jewish heritage knowledge' and the extent to which the metaphor of 'knowledge architecture' can contribute to a better understanding in the study of Jewish heritage.

Das Thema Partizipation prägt neben Transparenz, Nachhaltigkeit und Digitalisierung die Arbeit von Kultur- und Gedächtniseinrichtungen in besonderer Weise. Partizipation ist Museen und Gedenkstätten vertraut, da sie ihre Gründung nicht selten besonderem bürgerlichem Engagement verdanken. Im Zentrum des Bandes stehen Sammlungsstrategien historischer und jüdischer Museen und Einrichtungen, die öffentliche Partizipation stark integrieren.

**Sammlung; Museum; Bürgerbeteiligung; Judaistik**

Alongside transparency, sustainability, and digitalization, the issue of participation is uniquely influencing the work done by institutions of culture and memory. Museums and memorials are familiar with participation, as they are often founded as the result of citizens' special engagement. This volume focuses on the collection strategies employed by historical and Jewish museums, and institutions that heavily integrate public participation.

Der Band erforscht, wie deutschsprachige Postmemory-Narrative zur Erneuerung des nationalen Erinnerungsdiskurses beitragen. Dazu werden Werke der Nachwendzeit untersucht, die sich im Grenzbereich zwischen Dokument und Fiktion bewegen. In ihrer Mischung aus (auto-)biographischer Spurensuche, archäologischer Ausgrabung und detektivischer Ermittlung sind diese Arbeiten zugleich Medium und Spiegel einer Pluralisierung des Erinnerns.

This volume investigates how German-language postmemory narratives are helping to renew national memory discourse. It examines works produced since 1989 that are located on the threshold between document and fiction. By searching for (auto-)biographical traces, and carrying out archaeological excavation and detective investigation, these works are both a medium and reflection of the pluralization of remembering.

Taking the concept of “virtuality” as a starting point, this collective volume offers a fresh debate on the role of heritage, digital practices, and contemporary culture in shaping today’s Jewish spaces. The in-depth engagement with the characteristics of virtuality prompts questions about how to define an “authentic” and “real” Jewish space, and thus helps us to understand the Jewish experience of and place in today’s Europe.

To be tainted by the stigma of cult or idolatry or to make works of art possible through the incarnation of ideas and the transcendent – this tension continues to this day in the dispute over the power of images. Images create the horror and the sacred – banish both at the same time. The book looks at ancient and Jewish sites as well as Christian and bourgeois pictorial sources and draws a line to the present day.

*The Emergence of a Mizrahi Middle Class in Israel* examines a major issue in the sociology of Israel: the story of the Mizrachim, a group that has been, and is still, engaged in class-mobility efforts, and is ostensibly closing the gap between itself and the Ashkenazim. This is one of the most important social processes to have emerged in Israel in recent decades; it is changing the face of the Israeli middle class.

In the annals of Israeli history, innumerable heroic achievements have been recorded, but a total silence surrounds the veils of oblivion that conceal certain parts of it. From the forgotten episodes or those that have been rewritten, we can learn something we did not know about the fears, apprehensions, and demons that bedevil the history of our time. This study seeks to decipher the 'passive memory' in history and demands to be accounted for.

How did Israeli and Western Jews react to Ethiopian immigrants in Israel who are referred to as "Black Jews"? The book addresses the question of what occurs when Jews choose whiteness and Black individuals choose Blackness by examining the case of Ethiopian Jews and their immigration to Israel from the mid-19th century to today. This analysis by an Ethiopian Jewish scholar provides a fresh perspective on "Black" Jewish diaspora experiences.

The period from October 1941 to March 1943 marked the core phase of the murder of the Jews in all of German-ruled Europe. The volume documents the systematic deportations, the erection of the Theresienstadt ghetto and the radicalization of the extermination policy after the Wannsee Conference. Neither military defeats on the Eastern front nor the assassination of Reinhard Heydrich could stop the program of murder.

Der Erfahrungsbericht des jüdisch-polnischen Gewerkschaftsanwalts Jerzy Glikzman aus dem Gulag der Jahre 1939–1941 stellt eines der bedeutendsten jüdischen Zeugnisse aus dem sowjetischen Lagersystem dar. Das Dokument über den sowjetischen Terror erscheint zum ersten Mal auf Deutsch und wird von zwei einführenden Texten neu kontextualisiert. 1949 trat Glikzman als Zeuge vor der UNO auf und wurde als Experte für die UdSSR Professor in Harvard.

The gulag report by Jewish Polish union lawyer Jerzy Glikzman covering the years 1939–1941 is one of the most significant pieces of Jewish testimony from the Soviet labor camp system. This document of Soviet terror is now being published for the first time in German, accompanied by two introductory texts providing context. In 1949, Glikzman testified at the UN and became a professor at Harvard as an expert on the USSR.

The book aims to shed light on the wartime experience of the Mountain Jews as well as their memory and commemoration of the Shoah, which significantly differs from that of their European counterparts. It also attempts to fill the gap in Holocaust scholarship by examining how the memory of the Holocaust survived in a small group of Jews who formed a closed community and lived on the periphery of the Soviet Union.

Anhand einer Analyse der jiddischen Warschauer Tagespresse zeigt die Arbeit, wie polnische Juden trotz Zensur und Repressionen subversives Wissen über das nationalsozialistische Deutschland gewannen, vermittelten und auch Protest- und Solidaritätsaktionen zugunsten der dort Verfolgten initiierten. Durch den Blick von Ost nach West werden die Akteure der Presselandschaft als handelnde Subjekte in ihrem Kampf gegen den Antisemitismus gezeigt.

By analyzing Warsaw's Yiddish daily press, this volume reveals how Polish Jews gained and disseminated subversive knowledge of National Socialist Germany in spite of censorship and repression, and also initiated campaigns of protest and solidarity to the benefit of the people being persecuted there.

It derives from the four-year workings of a group of researchers and artists in Jerusalem led by Michal Govrin. Die Verfolgungssuizide im Zeitraum der Deportationen konnten bei aller Verzweiflung auch positive Signaturen tragen. Sie werden hier als distinktes Phänomen beschrieben, das einen festen Platz in der Flucht- und Widerstandsforschung einnehmen sollte. Dazu werden am Einzelfall die letzten Lebensmonate des nach seinem Suizid weithin vergessenen Tetanus-Entdeckers Arthur Nicolaier rekonstruiert und Hilfsnetzwerke in seinem Umfeld beschrieben.

Nationalsozialismus; Verfolgung; Suizid; Deportation

Even amid despair, there could be positive aspects to the persecution suicides of the deportation period. This volume describes them as a distinct phenomenon that should be firmly integrated into emigration and resistance research. It carefully examines the final months of Arthur Nicolaier – the physician who discovered tetanus and fell into relative obscurity after committing suicide – along with the support networks in his milieu.

The database provides an overview of Jewish-Christian interaction over the centuries up until today, and thus establishes a standard reference work of interdisciplinary research. International experts at the cutting edge of their disciplines will investigate in two hundred entries more than two thousand years of Jewish-Christian interaction, assess the achievements of dialogue and provide joint perspectives and new avenues for the future.

## Klemperer Online

Tagebücher 1918–1959

Deutsch/German

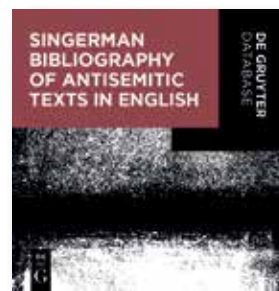

**Benutzeroberfläche/User Interface:** Deutsch, Englisch/English, German

Die Datenbank bietet erstmals die vollständigen, ungekürzten und edierten Tagebücher von Victor Klemperer, dem Chronisten der deutschen Geschichte des 20. Jahrhunderts. Als „Kulturgeschichtsschreiber der Katastrophe“ beschrieb der Romanist und konvertierte Jude von 1918 bis 1959 den Prozess der Entrechtung der Juden und dokumentierte zugleich seinen Alltag von der Weimarer Republik bis hin zur frühen DDR. Die digitale Edition setzt neue Maßstäbe.

**Deutsche und deutsch-jüdische Geschichte; Weimarer Republik; Nationalsozialismus; DDR; Wissenschaftsgeschichte**

For the first time, the database offers the complete and edited diaries of Victor Klemperer, the chronicler of 20th century German history. From 1918 until 1959, the Romance philologist and converted Jew chronicled the process of disenfranchisement of the Jews and at the same time documented day-to-day life from the Weimar Republic until the early days of the GDR. The digital edition contains transcriptions and facsimiles of the originals.

**German and German-Jewish History; Weimar Republic; National Socialism; GDR; History of Sciences**

English

**User Interface:** English, German

The bibliographic database identifies primary sources of antisemitic content either written in English or translated into English, from the beginning of the 19th century extending to 2022 imprints. A large percentage of the more than 9,200 texts are patently hate propaganda and theologically-driven while others are considerably more subtle in tone. The entries are accompanied by annotations, often with quotes from cited sources.

**Jewish studies; antisemitism; judeophobia; anti-Jewish propaganda**

## Vertreibungen aus den deutschen Universitäten im Nationalsozialismus

Deutsch/German

**Benutzeroberfläche/User Interface:** Deutsch, Englisch/English, German

Die Vertreibung zahlreicher Wissenschaftlerinnen und Wissenschaftler durch die brutale Exklusionspolitik des NS-Regimes gilt als bedeutsame Zäsur in der Wissenschaftsgeschichte des 20. Jahrhunderts und führte zu einem beträchtlichen Verlust an wissenschaftlicher Substanz. Die Datenbank bietet 1.300 Biogramme mit Details über Entlassungsgründe, Emigration und Remigration, über KZ-Haft und Suizide sowie über Opfer der NS-Vernichtungspolitik.

**Deutsche Geschichte; Universität; Nationalsozialismus; Migration; Exil**

The expulsion of numerous scientists by the Nazi regime's brutal policy of exclusion can be regarded as a significant turning point in the history of science. It led to a considerable loss in Germany's intellectual milieu. The database provides biographical information on 1,300 persons and provides details on academic status and disciplines, religious affiliation, reasons of expulsion, countries of emigration and remigration among others.

**German History; University; National Socialism; Migration; Exile**
