

DIFFERENCE EQUATIONS FOR SCIENTISTS AND ENGINEERING

Interdisciplinary Difference Equations

By
Michael A Radin
(Rochester Institute of
Technology, USA)

ISBN 9780000988553
Extent: 332pp, PB
Pub Date: 2020
Price: Rs. 1495

ABOUT THE BOOK

“Radlin has done a nice job in producing a textbook which provides a learner friendly introduction to difference equations. It would suit as a core text for a first year course in the topic, aimed, as the title suggests, at physical science or engineering undergraduates. The student who is prepared to work through the book will get a good grounding in basic techniques and gain a feel for the possible behaviours of standard equations. He will also be given some indication of the usefulness and potential complexity of discrete systems in modern science and engineering.”

London Mathematical Society

We introduce interdisciplinary research and get students and the audience familiarized with the difference equations; solving them explicitly, determining the long-term behavior of solutions (convergence, boundedness and periodicity). We help to develop intuition in analyzing convergence of solutions in terms of subsequences and analyzing patterns of periodic cycles. Our book helps you learn applications in biology, economics and business, computer science and engineering.

Feel Books Pvt. Ltd.
4381/4 Ansari Road
Daryaganj
New Delhi 110002
Tel: +91 11 47472600

READERSHIP

Readership: Students and researchers in mathematics, physics, science and engineering.

CONTENTS

- Introduction
- First Order Linear Difference Equations
- First Order Nonlinear Difference Equations
- Second Order Linear Difference Equations
- Second Order Nonlinear Difference Equations
- Advanced Characteristics and New Research Questions
- Answers to Selected Odd-Numbered Problems

For orders or enquiries, please contact us:
