

FUNCTIONAL ANALYSIS

Entering Hilbert Space

By
Vagn Lundsgaard Hansen
(*Technical University of
Denmark, Denmark*)

ABOUT THE BOOK

This book presents basic elements of the theory of Hilbert spaces and operators on Hilbert spaces, culminating in a proof of the spectral theorem for compact, self-adjoint operators on separable Hilbert spaces. It exhibits a construction of the space of p th power Lebesgue integrable functions by a completion procedure with respect to a suitable norm in a space of continuous functions, including proofs of the basic inequalities of Hölder and Minkowski. The L_p -spaces thereby emerges in direct analogy with a construction of the real numbers from the rational numbers. This allows grasping the main ideas more rapidly. Other important Banach spaces arising from function spaces and sequence spaces are also treated.

ISBN 9780000988690
Extent: 148pp, PB
Pub Date: 2020
Price: Rs.1095

Feel Books Pvt. Ltd.
4381/4 Ansari Road
Daryaganj
New Delhi 110002
Tel: +91 11 47472600

READERSHIP

Undergraduates in mathematical and physical sciences, and electrical and electronic engineering.

CONTENTS

- Basic Elements of Metric Topology
- New Types of Function Spaces
- Theory of Hilbert Spaces
- Operators on Hilbert Spaces
- Spectral Theory
- Exercises and Applications
