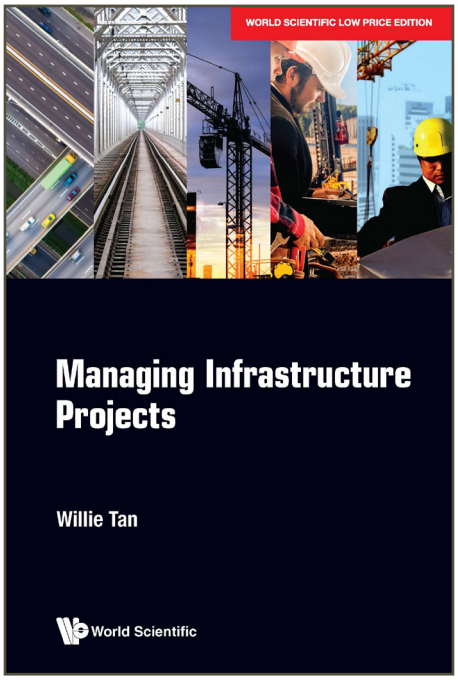
MANAGING INFRASTRUCTURE PROJECTS

By
Willie Tan (*National University of Singapore, Singapore*)



ISBN 9781944660048
Extent: 204pp, PB
Pub Date: 2022
Price: Rs. 1095

ABOUT THE BOOK

This book is about managing the infrastructure development cycle from project initiation to the end of the operation and maintenance phase. It focuses on the Public-Private Partnership (PPP) contract and, from this perspective, private and public sector procurement are variations.

Designed for students from different backgrounds such as information technology, business, architecture, quantity surveying, urban planning, project management, engineering, construction, facilities management, transport, finance, economics, and law, the book provides a structured guide to these diverse students as well as researchers, public officials, project sponsors, lenders, developers, contractors, subcontractors, suppliers, investors, infrastructure fund managers, insurers, facilities managers, non-government organizations, and consultants such as designers, engineers, environmental specialists, legal advisors, and brokers.

The book presents general principles that are applicable in different countries, particularly in the developing world where markets and other institutions are less developed and uses examples to clarify ideas.
