

Mathematical Olympiad in China (2009-2010)

Problems and Solutions

Edited By **Bin Xiong**
(East China Normal University, China)
Peng Yee Lee
(NTU, Singapore)

ISBN 9789814390217
Extent 204pp
Binding Paperback
Year 2013
Price Rs. 695

ABOUT THE BOOK

The International Mathematical Olympiad (IMO) is a competition for high school students. China has taken part in the IMO 21 times since 1985 and has won the top ranking for countries 14 times, with a multitude of golds for individual students. The six students China has sent every year were selected from 20 to 30 students among approximately 130 students who took part in the annual China Mathematical Competition during the winter months. This volume of comprises a collection of original problems with solutions that China used to train their Olympiad team in the years from 2009 to 2010. Mathematical Olympiad problems with solutions for the years 2002–2008 appear in an earlier volume, *Mathematical Olympiad in China*.

READERSHIP

Mathematics students, school teachers, college lecturers, university professors; mathematics enthusiasts.

CONTENTS

- 2008–2009 China Mathematical Competition
- 2008–2009 China Mathematical Competition (Complementary Test)
- 2009–2010 China Mathematical Olympiad
- 2009–2010 China National Team Selection Test
- 2008–2009 China Girls' Mathematical Olympiad
- 2008–2009 China Western Mathematical Olympiad
- 2009–2010 China Southeastern Mathematical Olympiad
- 2009–2010 International Mathematical Olympiad
